## Telecommunications Engineer and PhD in Computer Science

More on: <https://emunicio.github.io/>

Barcelona 08034 Spain

esteban.municio@i2cat.net

---

### SUMMARY

- Telecommunications Engineer and PhD in Computer Science specialized in programmable networks and Industrial IoT.
  - In-depth knowledge on wired and wireless networks, with focus on the PHY, MAC and IP layers.
  - Hands-on experience in multi-domain testbeds and on-field network deployments.
  - Wide background and research experience in ultra-reliable IoT networks, Open RAN and end-to-end traffic engineering through, SDN, network orchestration, TSN and network slicing techniques.
  - Experience in ICT4D and international development cooperation projects. Interested in connectivity provision in rural and isolated environments.
- 

### Education

2015 – 2020	<b>Ph.D. in Computer Science</b> at Faculty of Science – Universiteit Antwerpen (UAntwerpen) Thesis: <i>Towards Scalable End-to-End Programmable Industrial Internet of Things</i>
2013 – 2014	<b>M.Sc. in Networks and Computer Systems</b> at School of Telecommunications Engineering (ETSIT), Universidad Rey Juan Carlos (URJC) - 60 ECTS Thesis: <i>Heterogeneous wireless backhaul networks for rural 3G femtocells in developing countries.</i>
2009 – 2013	<b>University-specific degree in Development Cooperation</b> at School of Agricultural Engineering (ETSIA), Universidad Politécnica de Madrid (UPM) - 41 ECTS
2010 – 2013	<b>M.Sc. in Telecommunications Engineering</b> at School of Telecommunications Engineering (ETSIT), Universidad Politécnica de Madrid (UPM) - 120 ECTS Thesis: <i>Study and implementation of routing protocols for wireless mesh networks in rural environments.</i> Grade: A with Honours - Percentile: 99.9 %
2006 – 2010	<b>B.Sc. in Telecommunications Engineering</b> at Technical University School (EUITT), Universidad Politécnica de Madrid (UPM) - Telematics - 240 ECTS

### Other Courses:

Feb 2015 - “Introduction to 3GPP Small Cell Systems & NC200 Operation”, at *IP Access*. 96h. Cambridge (United Kingdom)  
Mar 2009 - “Scientific Programming in C++”, at *Katholieke Universiteit Leuven* (KUL) 40h. Leuven (Belgium)  
Sep 2008 - “Computational Steering in Science and Engineering” at *Technische Universität München* (TUM) 40h Munich (Germany)  
Feb 2013 - “Cisco CCNA Certification” at *Av@anza*. 30h Madrid (Spain)

### Experience

Jan 2022 – ongoing	<b>Senior Researcher</b> at i2CAT – AI-Driven Systems Open Radio Access Networks and 5G (Spain)
Nov 2019 – Dec 2021	<b>Postdoc Researcher</b> at IDLab Antwerp, <i>University of Antwerp – imec</i> End-to-end programmable networks and Industrial IoT (Belgium)
May 2015 - Nov 2019	<b>PhD Researcher</b> at IDLab Antwerp, <i>University of Antwerp – imec</i> Scalable End-to-End Programmable Industrial Internet of Things (Belgium)
Mar 2013 - May 2015	<b>Research Assistant</b> at TSC, <i>King Juan Carlos University</i> In EU-FP7 TUCAN3G project: “Wireless technologies for isolated rural communities in developing countries based on cellular 3G/4G femtocell deployments” (Spain)
Jun 2012 - Mar 2013	<b>Research internship</b> at INICTEL-UNI, <i>National University of Engineering</i> Deployment of wireless mesh networks in a high-Andean rural ecosystem and teaching workshops at INICTEL-UNI (Peru)

---

## TEACHING

---

2023-2024: Adjunct Professor “5G and Wireless Networking”, *Master in Connected Industry 4.0, Universidad Carlos III Madrid* (3 ECTS)  
2016-2017: Lab Teaching Assistant “Computer and Network Security”, *Master of Computer Science, University of Antwerp* - (6 ECTS)  
2017-2018: Lab Teaching Assistant “Computer and Network Security”, *Master of Computer Science, University of Antwerp* - (6 ECTS)  
Oct 2012: Lab Teaching assistant “1<sup>st</sup> Workshop of rural Telecommunications”, INICTEL-UNI, National University of Engineering

---

## RESEARCH PROJECTS

---

European Projects:

EU-FP7 [TUCAN3G](#) (2013-2015), Celtic+ [FlexNet](#) (2018-2021), H2020 [ProTego](#) (2019-2022), H2020 [DAEMON](#) (2021-2023), H2020 [Vital-5G](#) (2021-2023), H2020 [InterConnect](#) (2019-2023), SNS Stream A 01-01 [BeGREEN](#) (2023)

National Projects (Belgium):

ICON [iFest](#) (2015-2017), ICON [CONAMO](#) (2016-2018), ICON [Smart Waterway](#) (2019-2021)

National Projects (Spain):

UNICO [Open6G](#) (2022)

---

## SKILLS

---

Languages: Spanish: Native English: Fluent Dutch: B1 French: A2

“More” languages:

Strong skills: C, C++, Python, Unix Shell Scripting, Java, Matlab, and LaTeX

Rusted skills: Ruby, PHP, Objective-C, Assembly, Ada, Perl, TCL and VHDL

Management and Databases: Git, Jira, MySQL and PostgreSQL

Tools: J-Link, GNU Radio, 6TiSCH Simulator, ns-3, 5G-Empower, jFed, Jupyter, Ansible and Juju

Platforms: OpenWSN, Contiki, Grafana, OSM, OpenStack, Chamaleon Cloud, OAI, srsRAN, O-RAN-SC, ONOS, Kubernetes and Docker
